Debadeep Chaudhury

Teacher · Computer Science, Mathematics and Science

Warsaw, Poland | contact@dchaudhury.com
linkedin.com/in/dchaudhury | github.com/Delta-43 | dchaudhury.com

Scientist and software developer who teaches: designed and taught a 12-person coding workshop at 42 Warsaw, tutored IGCSE Computer Science, supervised 4 research interns and wrote open genomics teaching guides. 5 years of research in biology and data science; co-author of 3 papers in leading journals.

TEACHING AND MENTORING EXPERIENCE

Workshop Instructor (volunteer) · 42 Warsaw — Sept 2026

- Designed and taught the Guided Coding Workshop to 12 participants, from absolute beginners up: one small web app built three times, each with a more capable kind of AI assistance
- Wrote the course pack: setup guide for Windows, macOS and Linux, handout, slides, poster and a free-tools guide
- Taught working habits as well as tools: plan before coding, change one file at a time, and a repeatable debugging loop

Private Tutor, IGCSE Computer Science · Apprentus — Oct 2025 – Dec 2025

- Tutored 2 secondary-school students in IGCSE Computer Science, with planned lessons and regular assessments

Intern Supervisor · Nencki Institute of Experimental Biology, Warsaw — Oct 2021 – Sept 2025

- Supervised 4 interns in a computational biology lab: planned training, assessed progress and explained analysis methods
- Served as Student Council Secretary (2023 – 2025), organising community events and conferences

Community Organiser, 100+ members; built its Python meetup bot · Warsaw Geeks — 4+ years

Author, Functional Genomics Guides · open educational resource — Sept 2026

- Wrote 7 step-by-step guides from raw sequencing data to biological conclusions, with tested code and quality checkpoints

SKILLS AND SUBJECT KNOWLEDGE

Computer Science: Python, C, JavaScript/TypeScript, SQL, algorithms, databases, web development, version control (Git)

Mathematics: statistics and probability, statistical modelling, data analysis and visualisation

Biology and Chemistry: genetics, molecular and cell biology, evolution, neurobiology, biochemistry; lab practicals (DNA/RNA isolation, PCR, gel electrophoresis, cell culture)

PROFESSIONAL EXPERIENCE

Independent Software Developer · 42 Warsaw — Jan 2026 – Present

- Build and self-host web apps and AI tools (Python, TypeScript, Docker); team manager at 4 hackathons in 2026: Warsaw Open Data and HackYeah (top 10 in track), Codaro (1st in track, 2nd overall), 42 Warsaw Hacks (3rd place)

Bioinformatician, Doctoral Researcher · Nencki Institute of Experimental Biology, Warsaw — Sept 2021 – Dec 2025

- Studied how gene regulation in brain cells differs between humans, chimpanzees and macaques, using large sequencing datasets
- Co-authored 3 papers in *Cell Stem Cell*, *Nature Cell Biology* and *Nature Communications*; Director's Award for Distinguished Publication 2024; Best Poster Award at the Neuronus Neuroscience Forum 2022

EDUCATION

Software Engineering, Core Curriculum · 42 Warsaw — June 2026 – Present
M.Sc. Bioinformatics and Biotechnology · IBAB, Bengaluru — June 2020
B.Tech. Biotechnology · Neotia Institute of Technology, Management and Science, Kolkata — July 2018

LANGUAGES AND ACTIVITIES

English (C2, EF SET 75/100) · Bengali, Hindi (native) · Polish (B1, limited working) · French, German (elementary)

Guitar, keyboard · table tennis, volleyball, basketball · Arduino electronics · lived and worked in India, Germany, Poland
